

EwalkEnergy

ENERGY FOR FUTURE

Our Services

- ▣ Designing & Planning
 - ▣ Consulting
 - ▣ SNA Laisioning Responsibility
 - ▣ Residential & Commercial Installation
 - ▣ Industrial & Ground Mount Installation
 - ▣ After Sales & Service Support
 - ▣ Finance Support by Various Bank
- *(Tie-up with Ewalk Energy)

**THE BEST
ENERGY ON
THE PLANET**

COMPANY PROFILE

Ewalk Energy is green Environment energy solution provider Company [Engineering Procurement commissioning], Best solution provide in different category Rooftop, Ground mount, large, small and medium solar on grid power plant range of KW to MW scale. Ewalk Energy is a skilled organization established in 2023. It is a basically industrial and Residential Grid connected solar systems solutions with strategic presence in pan India. Technological leadership of international brands and unique customer support initiatives. Ewalk Energy Business Model Capex Model and Resco Model in Pan India. We have skilled Contractor workforce of more than 250 employees spread across locations, we are committed to deliver quality with excellence for customer satisfaction. Also Our technical teams are certified.

We Specialize in Sales, Marketing and Financing support by bank for Industrial Rooftop SPV Plant & Residential / Commercial Systems. Contracts for on-site Construction of Solar system structure and Solar Panel Mounting. Corporate Social Responsibility

- ❖ Ewalk Energy currently Use reputed Photovoltaic Manufacture in pan India.
- ❖ Installation Experience more than 3000 solar grid photovoltaic system in India capacity of more than 10 MW.
- ❖ Ewalk Energy is Provide standard quality material of system component In SPV Plant.
- ❖ Ewalk Energy MOU with Reputed PV Module Manufacture RAYZON, RENEWSYS, ADANI, WAREE, VIKRAM & LONGI.
- ❖ Ewalk Energy have skilled person of MW scale for best solution in rooftop and Ground Mount projects.

VISION

Ewalk Energy is a flag shipping company with a vision to Go Green, Go Solar and to provide world's best Indian standard quality product with best satisfaction service in pan India. Ewalk Energy will excel performance, expand and exceed the rest of the world under Indian flagship.

MISSION

Ewalk Energy is at the help to provide mankind an Eco-friendly solar solution the god give sunenergy and develop new job opportunity for in worldwide people.

QUALITY ASSURANCE

To ensure quality of the project, we produce QA/QC documents required at each activity, for close supervision and maintaining the necessary compliance for project records. These QA Plan documents show how the company defines, selects, implements and assures quality during Survey, design, procurement, erection, installation and commissioning process. The QA Plan is a communication vehicle for the entire organization including the promoters, project managers, technical engineers, design engineer, structural developers, analysts, and other project teams involved. Our dedicated Quality Assurance Team independently deals with matters related to Quality for all the products and services offered.

OUR PRODUCT RANGE

INDUSTRIAL ROOFTOP POWER PLANT SYSTEM

RESIDENTIAL ROOFTOP SYSTEM

INSTITUTIONAL / COMMERCIAL ROOFTOP SYSTEM

GROUND MOUNT SYSTEM

NET METERING

In case of solar project set by LT, HT /EHV consumer for captive use, the energy set-off shall be allowed between 07:00 hours to 18:00 hours of the same day. That means, generated solar energy during a day shall be consumed by LT, HT /EHV consumer during 07:00 hours to 18:00 hours on the same day. The surpluses energy after the specified period shall be purchased by Discom at rates specified under this policy. In the absence of grid power, the Rooftop SPV will continue to supply the power in case of hybrid setups.

ADVANTAGES OF SOLAR SYSTEM

- ❖ Renewable & pollution free.
- ❖ Reduce Electricity Bill.
- ❖ Less to No maintenance for years.
- ❖ Diverse Application.
- ❖ Can be Stored in Battery.
- ❖ Lower equipment cost us compared to off grid solar.

WHY SOLAR ?

Consistent supply of electricity is a basic requirement whether it is for hindrance-free education, seamless business operations or reducing maintenance overheads. Soaring electricity bills, increasing power outages and deteriorating environmental conditions, make solar energy the most viable and long term solution. We at Ewalk Energy constantly strive to provide our customers with a customized solution that helps them seamlessly migrate to Solar Power System to Set an example for your future generations “Go Green Go Solar” by Ewalk Energy.
